Do. ,, XII.—Net cash earnings of convicts sentenced to labour ...	60 & 61
Do. ,, XIIA.—Ordinary profits	62
Do. ,, XIII.—Gross and net cost of prisoners	63

Vital.

Statement No. XIV.—Sickness and mortality amongst all classes of prisoners...	64—69
Do. ,, XV.—Admission and deaths from the chief diseases amongst convicts	70 & 71
Do. ,, XVI.—Mortality according to length of time *passed* in Prisons and Subsidiary Jails	72 & 73

Minor Classes of Statements.

Statement No. XVII.—Particulars regarding undertrial prisoners	74 & 75
Appendix A.—Showing the nature and amount of accommodation for each class of prisoners	76—83
Do. B.—Showing condition of convicts discharged	84 & 85
Do. C.—Showing working of the Remission System	86 & 87
Do. D.—Showing the nature of the crimes for which convicts were imprisoned	88—103

BOMBAY BRANCH
OF THE
Royal Asiatic Society.

No. 8807 of 1922.

INSPECTOR GENERAL OF PRISONS' OFFICE :
Poona, 25th May 1922.

From

LIEUT.-COLONEL F. O. N. MELL, C.I.E., M.B., C.M. (Edin.),
D.P.H. (Cantab.), I. M. S., Inspector General of Prisons,
Bombay Presidency ;

To

THE SECRETARY TO GOVERNMENT,
Home Department, Bombay.

Sir,

I have the honour to submit the Annual Administration Report for the year 1921 (together with the usual Statistical Tables) on Prisons and Jails in Bombay Presidency (including Province of Sind and Aden).

I was in charge of the Department for the whole year.

JUDICIAL.

2. There has been no change in the number of Central, District, Special and Extra-mural Prisons. Statistics of Third Class Subsidiary Jails have been grouped as before.

3. Though the total number of convicts confined shows a very slight decrease, the daily average strength was higher by *249*.

4. The following table, which compares the figures of the past two years, refers to the admission of convicts into Prisons and Second Class Subsidiary Jails :—

Statement No. I—Number and disposal of convicts.

		1920.			1921.		
		Males.	Females.	Total.	Males.	Females.	Total.
Number remaining on last day of previous year	Prisons ..	11,255	297	11,552	11,254	351	11,605
	Jails ..	81	3	84	75	11	86
Imprisoned during the year ..	Prisons ..	17,785	882	18,667	17,801	833	18,634
	Jails ..	340	28	368	288	10	298
Total ..	Prisons ..	29,040	1,179	30,219	29,055	1,184	30,239
	Jails ..	421	31	452	363	21	384
Grand Total ..		29,461	1,210	30,671	29,418	1,205	30,623
Daily average strength ..		10,853	319	11,171	11,075	345	11,420

5. *Releases.*—The only interesting figures under this head are—

(1) the *increase* of over 250 under remission rules. This shows that prisoners are beginning to take a more intelligent interest in getting remission for conduct and work, and so getting out of prison quicker ;

(2) *decrease* under deportation, owing to the decision of Government of India to stop transportation to the Andamans. First that of females was stopped. Later transportation of both sexes.

This, curiously enough, caused a great deal of dissatisfaction among the sentenced men, who complained bitterly to me about it, when I visited Thana. Evidently, they preferred the Andamans to imprisonment in India.

(3) *Lunatics.*—The number of lunatics transferred was half that of last year (12 against 25).

(4) *Sent to Settlements.*—The Salvation Army took 82 and Bijapur 30 against 37 and 14 last year. This is all to the good, because the work of reclamation by these two agencies is of a lasting character. And as a rule we do not get these men again.

(5) *Somalis.*—A large number of Somalis (144) were repatriated in June. These men had been sent to India for political reasons, during the war. They had become very good weavers ; and the Superintendent, Ahmedabad Central Prison, especially, spoke very highly of their work.

There were 9 state prisoners in confinement in the Presidency at the close of the year.

6. *Age.—Juveniles.*—It is regretted that the number of juveniles admitted has increased and especially among females (19 as against 5).

Statement No. II—Religion, age, education and previous occupation of convicts.

On the other hand first offenders were released in larger numbers, under section 562, Criminal Procedure Code (198 against 139). I hope this will continue to be used more and more, for it is the "First admission" into prison that has the worst effect on a youth.

I must here protest against the sentences indicated below:—

Age.	Crime.	Sentence.	Number of previous convictions.
	Females.		
11	Section 379, I. P. C.	15 days' R. I.	....
12	,, 411 ,, ...	Fine Rs. 50 or 14 days' S. I. ..	....
13	,, 379 ,, ...	7 days' R. I.	....
12	,, ,, ,, ...	1 month's R. I.	....
14	,, ,, ,, ...	21 days' R. I.	One.
14	,, ,, ,, ...	1 month's R. I.	....
11	,, ,, ,, ...	20 days' S. I.	One.
11	,, ,, ,, ...	4 days' R. I.	....
14	Section 121 of Bombay City Police Act IV of 1902. (Begging, etc.)	15 days' R. I.	....
	Males.		
14	Section 380, I. P. C.	10 days' R. I.	One.
12	,, 114 of Bombay City Police Act ..	Fine Rs. 15 or 7 days' R. I. ..	....
11	,, 380, I. P. C.	7 days' R. I.	....
10	,, 379 ,, ...	Fine Rs. 15 or 7 days' S. I. ..	....
14	,, 414 ,, ...	1 month's R. I.	....
11	,, 379 ,, ...	Do.	....
13	,, 380 ,, ...	20 days' R. I.	....
13	,, 323 ,, ...	Fine Rs. 30 or 1 month's R. I.	One.
12	,, 15 of Aden Settlement Regulations	7 days' R. I	....

7. It will be seen that the ages were 14 and under. In only four were there any previous convictions, and then only one in each case.

I have only picked out those under 1 month, as being the most glaring cases.

If Magistrates are compelled by law to give these sentences, it is a strong argument that the law should be amended without delay.

Of the 42, 9 had previous convictions. Two were released by order of District Magistrate, and 1 (aged 12) had sentence reduced from transportation for life to 5 years.

The subjoined table shows sentences of remaining 30 :—

Up to	7	days	..	..	4
From	7	to 15 days	..	..	3
Do.	15	,, 22 ,,	..	..	3
Do.	1	,, 3¼ months	..	..	14
Do.	9	,, 10 ,,	..	..	2
		under 2 years	..	..	3
		2 ,,	..	..	1
					30

Statement No. III—Nature and length of sentence.

8. Sentences of 7 days and under in Bombay show no decrease. In fact those having 7 days in default of payment of fine have increased in numbers (293 against 225 in 1920). This shows that there are magistrates who are still in favour of passing these absurd and futile sentences.

Sentences of 1 month and under are slightly on the decrease, but it is hardly appreciable.

It was noticed that one of the Magistrates in Bombay was very fond of giving one month to youths for gambling. I cannot see any use in this sentence ; and a great deal of harm results from their mixing with other convicts.

It was also noticed that several Magistrates, in Bombay especially, would give no habitual more than 2 years, no matter how many previous convictions he had. Many gave less. I append a few very bad cases below as illustrations of my statement. I could fill a page with them :—

Number of prisoners.	Number of previous convictions.	Sentence.
6*	7	1 to 6 months.
10	8	3 ,, 6 ,,
6	9	3 ,, 9 ,,
6	6	3 ,, 6 ,,
1	12	6 ,,
2	5	6 ,, 9 ,,
5	10	6 months to 1 year.
1	15	2 years.

* Of whom one was a female who was sentenced to one month only.

This is one method of overcrowding jails.

Common Prison.—In H. M.'s Common Prison whose total accommodation is 180 with the exception of three months (when numbers were 57, 89 and 82) the admissions sentenced to one month and less varied between 101 and 153. This does not take into account the civil debtors.

Statement No. IV—Reconvictions.

9. Reconvictions are nearly 600 less than last year (3,363 against 3,968). The number of habituals admitted (*vide* subjoined statement) during the year was about the same. Those identified by jail officials were 40 against 74 in the previous year.

The number imprisoned, for the first time, for failing to find security under section 110, Criminal Procedure Code, shows a drop of 300. This is a most encouraging sign.

It is in Sind that the numbers under this head are highest (387 out of 661), Sukkur being the worst (239), more than one-third of the total number imprisoned in the Presidency.

It is easily seen that those under this section help to fill the jails. Sukkur is constantly overcrowded. It might be possible to get surety from these people, if they were given time to pay it.

1 Serial No.	2 Jails.	3 Number admitted during the year.	4 Number in column 3 identified as "Habituals" before conviction and classified as such by the convicting Court.	5 Number in column 3 classified as "Habituals" by the District Magistrate or Magistrate specially empowered (not being the convicting Court).	6 Number in column 3 classified as "Habituals" by the Jail Superintendent.	7 Total "Habituals" admitted.	8 Ratio per cent. of column 7 to column 3.
1	Common Prison ..	3,468	584	1	12	597	17·2
2	House of Correction ..	396	274	....	....	274	69·3
3	Yeravda ..	2,086	204	....	1	205	9·8
4	Dhulia ..	1,939	250	2	7	259	13·4
5	Deccan Gang ..	1,165	87	3	....	90	7·7
6	Bijapur ..	1,246	162	....	2	164	13·2
7	Dharwar ..	65	1	....	....	1	1·5
8	Karwar ..	119	6	....	....	6	5
9	Ratnagiri ..	62	9	....	....	9	14·5
10	Thana ..	769	68	2	....	70	9·1
11	Ahmedabad ..	2,375	93	....	3	96	4
12	Rajkot ..	83	....	....	....	....	....
13	Karachi ..	935	111	....	....	111	11·9
14	Hyderabad ..	1,913	217	....	9	226	11·8
15	Sukkur ..	1,048	185	....	1	186	17·7
16	Shikarpur ..	645	18	....	....	18	2·8
17	Sind Gang ..	2	....	....	....	....	....
18	Aden ..	318	1	....	5	6	1·9
	Total, 1921 ..	18,634	2,270	8	40	2,318	12·4
	Total, 1920 ..	18,667	2,236	3	74	2,313	12·4
	Total, 1919 ..	23,051	2,459	23	91	2,573	11·2

10. A far larger number of old offenders were identified by the Police than in 1920 (2,058 against 1,717).

Statement No. V—Escapes (Convicted prisoners).

11. There were 23 escapes this year of whom 12 were recaptured.

Fourteen were from inside and 9 from outside the jails.

There was one in *Thana*—a female. She had been put in a separate cell, having shown signs of lunacy. I believe this was all part of a plan for escape. In the enquiry, gross negligence was discovered on part of matron and assistant matron. There was also collusion on part of convict overseers, no doubt. The woman broke open her cell, placed (or had help in placing) a number of boxes (used for taking rations round) against the wall, and with the aid of a *saree* of an undertrial, let herself down over the wall. She was a woman with 15 previous convictions, and completely hoodwinked the female staff. The matron was fined half a month's pay, assistant matron was dismissed, and the convict overseers reduced, and put on hard labour.

The *Sind Gang* had 4 escapes, 3 of whom were recaptured.

Two escaped from tents inside the jail, but outside the circle. They broke the rivets of their ankle rings. This was not noticed, on inspection, at lockup. One was recaptured in a few minutes; the other gave himself up next day.

One escaped from "quarry gang," and was recaptured by outside villagers.

One escaped from the Jamshoro detachment working on Fuleli Canal, by getting off his *bel* chain (probably in collusion with warders).

All these escapes were due to carelessness of warders. They were suitably dealt with. The type of warder in Sind Gang leaves much to be desired. It is very difficult to recruit men of a really good type.

Eight men (Berads) escaped from *Belgaum Subsidiary Jail.* The person primarily responsible in this case was the jailor, in that he did not see the *bel* chain was properly fastened to the prisoners.

One man threw a blanket over the N.W., and sat on him. Then the others broke open the door, which is a flimsy thing made of wooden bars. In the midst of all this noise the convict overseers and nightwatchmen say they slept peacefully. No doubt they were afraid of these men, who were desperate characters. The Police who were on guard outside the barrack, and have charge of the jail during the night, seem to have slept through it all also, or at any rate did nothing till too late. The jailor and others of the Prison Department were dealt with by me, while the Police were dealt with by the Police Department.

The Sub-Jail is a very unsafe one, and we await the putting in of a temporary water supply at Hindalgi, to transfer all convicts to that place.

Dhulia.—Prisoner jumped over the garden wall when working in the garden and was caught within 200 yards, after an exciting chase. No one was to blame in this case.

Deccan Convict Gang.—The convict was being used by the warder in charge to carry water. He went out of sight, and was not missed for over half an hour. He got into the scrub jungle, and was not seen again. It was a very clear case against the warder, who was prosecuted, and awarded three months' simple imprisonment.

Karachi Prison.—The prisoner was one of a cleaning party on Superintendent's bungalow. He escaped, owing to being allowed out of sight by the warder in charge. He was cleverly recaptured by orderly (Bilesar), who was on his way to report the matter to the Police at Railway Station, and heard the sound of fetters at side of the road. He saw and chased the prisoner, and caught him. This warder was rewarded, while the warder and convict overseer in charge, who allowed the escape were dismissed, and reduced respectively.

Two prisoners escaped from inside a barrack in Aden Jail, having got possession of a crowbar, by means of which they bent the bars of the barrack door sufficiently to get through between them. Then forced the store room window, and took out a bamboo pole and rope and used them to get over the wall.

They were not recaptured.

The remaining escapes occurred from jail gardens or gangs, and were due to slackness of warders.

H. M.'s House of Correction.—Two. One was sent to J. J. Hospital for operation. He stole some money from a patient during the night. This was discovered and the amount recovered. He was handcuffed, but he said he wanted to answer the call of nature, so the handcuffs were removed, and a screen put round the bed. The warder fell asleep, and the prisoner decamped. He was not recaptured.

In the second case the prisoner tried to make away when going to the garden but was caught within half an hour. No one was to blame.

Yeravda Central Prison.—This prisoner escaped from the Police on his way by train to Hyderabad. This was due to no fault of the Jail Department.

Sukkur Prison.—One of the outdoor sweeper party escape due to gross negligence of warder and convict overseer in charge, allowing prisoner out of sight. Both warder and convict overseer were awarded 6 months' simple imprisonment by the City Magistrate, Sukkur.

Ahmedabad Central Prison.—Escape from pump file, which works half a mile away from the jail.

Convict was allowed to go out of sight, slipped off, but was recaptured the same day by the Mukhi of Acher Village. The Mukhi was rewarded, and the others concerned dealt with departmentally.

Sind Convict Gang.—Escape from stone breaking file between 2 to 2-30 p.m. one day, owing to the convict overseer going to sleep, and the warder sitting down under a tree. The man walked quietly away for some distance (in case his fetters made a noise, and attracted attention), then ran for 2 miles to the hills, and broke the rivet of ankle ring with a stone. At 4 a.m. next day he was recaptured by villagers of Miani, who handed him over to the Police.

The warder was dismissed and the convict overseer reduced, and cut 60 days remission.

It will be noticed that the escapes from out gangs are always due to warders and convict overseers letting their convicts out of sight.

Recaptures.—There were 12 recaptures, of whom 7 had escaped during 1921 and 5 were those of previous years.

Statement No. VI—Offences and punishments.

12. The number of offences dealt with by convicting Courts was 24 as against 30 last year as detailed below :—

	1920	1921
Section 52, Prisons Act.		
Relating to work	8	6
Breach of discipline	2	5
Indian Penal Code.		
Attempt to escape or escape	8	5
Voluntarily causing hurt and grievous hurt (secs. 323, 325 & 114, I.P.C.)	....	4
Assault	12	2
Murder (Sec. 302, I.P.C.)	....	1
Attempt to commit suicide	....	1
Total	30	24

13. The number of offences dealt with by Superintendents decreased by 1,867 (from 22,261 to 20,394), the average population being 11,420 against 11,171. Minor and major punishments decreased by 1,381 and 903 respectively.

I do not think some of the Superintendents yet realize the use that can be made of section 52 of Prisons Act. But I have tried to explain it to them.

	1920		1921	
Offences dealt with—				
By Criminal Courts	30		24	
	Dealt with by minor punishments.	Dealt with by major punishments.	Dealt with by minor punishments.	Dealt with by major punishments.
By Superintendents—				
Relating to work	8,002	3,414	6,735	3,102
,, prohibited articles	1,724	707	2,103	733
,, assaults, mutiny and escapes	120	377	107	367
All other breaches of Prison rules	5,384	2,533	5,062	2,185
Total	15,230	7,031	14,007	6,387

14. The total number of major and minor punishments awarded by Superintendents was 20,965 and the total number of offences 20,394. The difference of 571 is due to the award of combined punishments.

	1920	1921
Punishments inflicted—		
By Criminal Courts	30	24
By Superintendents—		
Warnings	3,311	2,578
Penal diet	2,425	1,869
Separate, cellular and solitary confinement	115	89
Hand-cuffing and link fetters	4,501	4,825
Other punishments	5,168	4,778
Total	15,520	14,139
Separate, cellular and solitary confinement	309	216
Penal diet with solitary confinement	67	78
Fetters or hand-cuffing behind or to a staple	4,372	3,900
Corporal punishments	46	28
Combination of minor punishments	29	30
Other punishments	2,906	2,574
Total	7,729	6,826
Grand Total	23,279	20,989

15. Of the 20,965 punishments awarded by the Superintendents 14,139 or 67 per cent. were minor and 6,826 or 33 per cent. belong to the major class. Warnings formed 12·3 per cent. of the total number.

16. Both major and minor punishments decreased this year by 2,290 (20,989 against 23,279 in 1920).

I would here point out to Superintendents that a great deal may be done by talking to a prisoner, and telling the advantages he gains by good conduct in remission, promotion, earlier release, etc., and the disadvantages, *e.g.*, punishments, loss of remission, later release. Sometimes telling a man, he is by misbehaviour losing the chance of an interview with his friends, will pull him up, and cause a complete change in his attitude. Some Superintendents think talking to them is waste of time, but I have found it advantageous in every way.

The only form of punishments which increased, were the minor ones of handcuffs and link fetters. Otherwise all forms showed a decrease.

One can often see a direct relation between increased work, plus increased remission, and decreased punishments.

Out of 20,394 offences, 2,527 habituals were responsible for 6,768, and 5,533 casuals for 13,626 offences.

17. *Floggings.*—The number has decreased appreciably from 46 to 28, as per subjoined statement. All cases, except two were for assaults, or mutinous conduct. In two cases the Superintendents were attacked (at Sind Gang and Ratnagiri) in one the Jailor (Thana), four were assaults on warders, and 14 on convict officials.

Of these assaults 19 were committed by Sindhis, which shows, they are not the most peaceable folk in the Presidency.

It will be seen from the above that the type of offence, for which flogging has been given, is that for which the Jail Commission say it should be reserved.

The two cases, which were the exceptions, were cases of unnatural offence.

I had to remark on the infliction of 10 stripes in one jail, as liable to bring this form of punishment into contempt.

Prisons.	1	2	3						4	5	6	
	Total number of male prisoners for the year.	Total number of prison offences.	Total number of prisoners punished by whipping.						Percentage of column 3 to column 1.	Percentage of column 3 to column 2.	Number of prisoners in whose case (*a*) death or (*b*) illness was directly or indirectly the effect of corporal punishment.	
			5 to 10 stripes.	Above 10 to 15 stripes.	Above 15 to 20 stripes.	Above 20 to 25 stripes.	Above 25 to 30 stripes.	Grand total.			(*a*)	(*b*)
Common Prison.	3,595	875	..	..	..	..	..	..	..	..	..	..

18. *Fetters.*—Ten thousand seven hundred and two prisoners were fettered against 9,985 in 1920; mostly prisoners employed extramurally, for purposes of security, 7,734.

Remission system.

19. There was a larger number of releases under remission system than in 1920 (3,885 to 3,627). This year I suggested the increase of "Good Conduct Remission" (for a year's clean sheet in prison) from 15 to 20 days, and that it should count from date of last offence instead of the following quarter. The rule was passed, and has been much appreciated by convicts.

Several Superintendents mention that their convicts appreciate remission.

In Ahmedabad, especially, I noticed the way they had come up for it for extra work and good conduct.

I am still not satisfied that all prisoners know the meaning of it. And, in the cases of convict officers, have always insisted that any should know how they stand. Because it is part of their duty to instruct those below them. And if they are ignorant, they do not deserve to be convict officers.

I have encouraged giving of liberal remission for help in assaults, especially if the helper is near his release. It impresses those who see the man walk out of jail to freedom for having helped the Government.

Special awards under rules 514 and 519, *i. e.*, remission for one year's good conduct and for doing special work, were granted to 2,544 and 2,771 prisoners, respectively (against 2,323 and 2,223 in 1920). This is a practical illustration of the fact that the prisoners are appreciating it and striving for it.

The practice of promoting prisoners under sentence of one year, in the absence of suitable long-term prisoners, was adopted in some prisons, and was found to work fairly satisfactorily. This was especially tried in Shikarpur Special Prison, and was done in order

(1) to avoid transfers with all the extra expense, and

(2) to try and make the jail (which is a special one for casuals) into a self governing community, entirely independent of help from outside jails.

The experiment answered very well. No convict who had been punished was promoted.

Statement No. VII—Convict officers.

20. The average number employed as prison officers increased (1,180 males and 15 females against 1,153 males and 13 females) respectively.

The one important point in this connection is the fact that though the number of convict officers was increased (owing to shortage in warder staff) yet the number of punishments has decreased very appreciably by over 900 (1,971 against 2,893). This is a very encouraging sign.

In a few cases the trust reposed in them was abused, *e.g.*, as seen in some escape cases mentioned elsewhere. But on the whole they did well.

I have always asked Superintendents to rub it into convict overseers and convict warders (who get 6 and 8 days remission respectively per month) that the remission given is liberal. And Government expects a good return for it in the shape of work and responsibility. And it is as well to let the erring officer know there are twenty or thirty men ready and eager to take on his job, if he is found inefficient.

Habituals—night watchmen—over habituals in barracks at night were tried in several jails, and in all cases have proved a great success. Only well behaved men were chosen. There was great competition to get the posts, they behaved well, and did their duty to every one's satisfaction, and in this way the two classes—casuals and habituals—were kept still further apart. Government will now be requested to sanction it as a permanent measure, and a rule will be incorporated in the Jail Manual.

Statement No. VIII—Diet.

21. The statement needs no comment. The last column in the statement shows the extra ration and alterations in the diet scale which were adopted as necessary in some of the jails.

Statement No. XVII—Undertrial prisoners.

22. The number admitted (78,562) shows a decrease of 10,541 over the figures for the year previous (89,103). The daily average strength, however, rose from 2,530 in 1920 to 3,057 in 1921—increase of 527. This clearly shows that a large number of undertrial prisoners were

detained in Lock-ups and Sub-Jails for prolonged period, naturally resulting a large expenditure on diet. Take the average rate of annas four a day per head, this item comes to Rs. 4,000.

23. The number of adolescents or juveniles detained as undertrials for prolonged periods shows a larger increase as shown below :—

Year.	2 to 3 months.	3 to 4 months.	Over 4 months.
1921	73	19	12
1920	35	12	10

24. Twenty-seven undertrial prisoners escaped in 1921 against 20 in 1920. One of these was from His Majesty's House of Correction, Bombay, from the Police custody on way to Court and the rest from 3rd Class Sub-Jails and Lockups. Of these ten escaped from Sind Police.

25. The number of deaths among undertrial prisoners was 64 against 58 in 1920.

In Prisons 11 against 12 in 1920.

In 3rd Class Sub-Jails and Lock-ups 53 against 46 in 1920.

Of the 11 deaths in prisons 8 alone occurred in His Majesty's Common Prison, Bombay. Two in Ahmedabad Central Prison, and one at Sukkur, with two exceptions they died very soon after admission in jails.

26. The number of undertrials remaining on 31st December 1921 was :—

	Males.	Females.
Prisons	752	25
Second Class Sub-Jails	41	5
Third Class Sub-Jails and Lock ups	1,956	69
Total ..	2,749	99

Civil prisoners.

27. The number of prisoners decreased (464 males and 1 female against 522 males and 7 females in 1920).

FINANCIAL.

Statements Nos. IX and X—Expenditure.

28. The gross expenditure increased (Rs. 25,34,785 against Rs. 21,98,623) and the cost per head being Rs. 175-1-5 against Rs. 160-7-7 in 1920. Sale proceeds of garden produce have been deducted from the total charges. The reasons for the increase are given below :

Establishment.

29. The total cost and cost per head as compared with the previous year have increased (Rs. 5,50,212 against Rs. 4,72,015 ; Rs. 38-0-1 against Rs. 34-7-3).

Increase here of Rs. 78,197 was due to—

(1) Revised rates of pay of whole establishment.

(2) Appointment of a senior Superintendent at Yeravda Central Prison.

Dietary charges.

30. The total cost and cost per head have increased from Rs. 12,75,796 and Rs. 93-1-10 to Rs. 14,30,044 and Rs. 98-12-6 respectively the cause being :—

(1) Increase in population by daily average of 776.

(2) The continuance of high rates of provisions owing to bad monsoon in some parts.

The principal items are given below :—

		Average rate in 1920.	Average rate in 1921.
Jowari	per rupee	lbs. 9—15	9—10
Wheat	,, ...	,, 8—10	8—8
Rice	,, ...	,, 10—5	9—1
Dall toor	,, ...	,, 7—1	6—7
Milk	,, ...	,, 6—3	6—1
Mutton	,, ...	,, 4—1	3—10

(3) The sanctioned rates of feeding prisoners per day in several taluka third class subsidiary jails and lock-ups throughout the Presidency were also higher in 1921 than in 1920.

Hospital charges.

31. The total cost and cost per head have been Rs. 1,25,637 and Rs. 8-10-10 against Rs. 1,05,112 and Rs. 7-10-9 in 1920. The increase was due to—

(1) Higher cost of extras.

(2) More extras issued to prisoners who suffered from scurvy and influenza.

(3) Adjustments for the supply of medicines supplied during previous year were only made this year. Thus two years adjustments came into 1921.

Medical officers have been circularised to keep a very strict eye on extras, and not give them except to really deserving cases. A young medical officer is rather inclined to give extras without thinking ahead. I had to call attention to this in two large jails during my inspection, where the extras increased without a corresponding increase in numbers in hospital.

Clothing and Bedding.

32. The total cost and cost per head decreased (Rs. 1,26,785 and Rs. 8-12-1 against Rs. 1,34,670 and Rs. 9-13-3 in 1920) the decrease being due to favourable rates of yarn, and more economy in the use of prison clothing.

The Superintendents have been urged to give liberal remission to men who keep their suits of clothing over 6 months. And this is, I hope, having some effect.

Sanitation charges.

3. The total cost has increased (Rs. 44,751 against Rs. 42,145) and the cost per head (Rs. 3-1-6 against Rs. 3-1-3). The increase was due to—

(1) Higher rates of disinfectants.

(2) Use of larger amount of water at Karachi Prison there being no rain at the seeding season.

Charges for moving prisoners.

34. Both the total cost and cost per head have largely increased (Rs. 1,08,433 against Rs. 50,389 and Rs. 7-7-10 against Rs. 3-10-10). Increase is due to the following factors :—

(1) Increase in population.

(2) Transfer of prisoners from one jail to another to relieve overcrowding. This is especially the case in the Common Prison and in Sind Jails.

(3) Adjustment of transfer charges for the previous year in addition to the adjustment of the current year (1921).

Charges for miscellaneous services and supplies.

35. The total cost has increased (Rs. 89,401 against Rs. 74,254) and the cost per head (Rs. 6-2-9 against Rs. 5-6-9) being due to—

(1) Increased rate of kerosine oil for lighting purposes.

(2) More satisfactory arrangements of lighting at the Deccan and Sind Convict Gangs, by providing pearl and pressure lamps.

(3) Purchase of more iron for ankle rings.

(4) Larger number of execution charges ; and more releases of convict officers ; and more freight charges on prison clothing owing to frequent transfers of prisoners ; and repairing charges.

36. The total cost has increased (Rs. 12,825 against Rs. 8,803). The increase being due to—

Travelling allowance.

(1) More transfers of the staff both clerical and executive.

(2) More travelling allowance paid to warders accompanying larger number of parties of prisoners transferred from one jail to another to relieve overcrowding throughout the Presidency (including Sind).

(3) Khan Bahadur N. R. Wachha, Superintendent, Ahmedabad Central Prison, sent to Central Provinces (Nagpur, etc.) to see factory work.

Major K. G. Gharpurey, I.M.S., Superintendent, Dhulia Prison, and the Jailor Mr. Almeida, to Ahmedabad Central Prison.

Dr. D. J. DeSouza, L.M. & S., Superintendent, Sind Convict Gang, to Deccan Convict Gang to see extramural work.

37. The total cost and cost per head have increased (Rs. 23,509 and Rs. 1-10-0 against Rs. 21,050 and Rs. 1-8-7). Increase due to the increased—

Contingencies.

(1) Taxes and arrears of the previous year paid to the Karachi and Dhulia Municipalities.

(2) Increased rates of postage and telegraph.

(3) Purchase of an iron safe for Deccan Convict Gang.

The cost of printing of forms and binding of books for the Jail Department was Rs. 6,712 against Rs. 7,183 in 1920.

38. The total expenditure has increased (Rs. 23,188 against Rs. 14,389) and the cost per head (Rs. 1-9-8 against Rs. 1-0-10). This increase was unavoidable. The reasons given in the last year's report hold good this year also. Unserviceable articles, such as copper degs, tents, zinc pots and plates, iron cots for hospitals, grinding mills had to be replaced and also a donkey for Karachi Jail, bullocks, etc., to replace worn out animals had to be bought.

Extraordinary charges for live-stock, tools and plant.

39. The average number of prisoners sentenced to labour shows an increase (11,310 against 11,041 in 1920). The percentage of those employed on manufacture and extramural work was nearly the same.

Statement No. XI—Employment of convicts.

40. The net cash earnings have *increased* (Rs. 2,45,583 against Rs. 1,93,881) an increase by Rs. 51,702. Ahmedabad Central Prison, Thana, Sukkur, Hyderabad, Common Prison, Ratnagiri, Bijapur, His Majesty's House of Correction, Karachi, Dhulia and Rajkot show an increase in profits, while the rest of the prisons show a decrease, amounting to Rs. 27,849.

Statement No. XII—Net cash earnings.

The total increase in profits gained by the eleven prisons amounts to Rs. 79,551 and the decrease against the rest of the prisons was Rs. 27,849, the difference being Rs. 51,702 which can be explained thus :—

(1) Larger number of labouring prisoners (11,310 against 11,041 in 1920).

(2) The balance under manufactured articles and raw materials at the close of 1921 were less by Rs. 9,155 as compared with 1920.

Yeravda Central Prison.—A sum of Rs. 46,302 being the maintenance charges for the prisoners employed in the Press, has been included in the earnings of the prison, otherwise the loss would have increased to Rs. 51,517 instead of Rs. 5,215.

Dharwar Prison.—Shows a decrease of Rs. 2,801—due to purchase of tools and plants and a larger balances in hand of manufactured articles received for sale from the Bijapur District Prison.

Deccan Convict Gang.—The decrease of Rs. 6,489 in the profits of this gang was mainly due to the majority of convicts being employed throughout the year on earth work alone (gorge portion of the dam) which draws a lower scheduled rate of pay.

Sind Convict Gang.—Much construction and repair work, owing to heavy damage to jail buildings by a storm in July 1921, had to be carried out, in consequence of which a smaller number of prisoners was employed on extramural work (232 against 298 in 1920).

Aden Special Prison.—The decrease of Rs. 4,467 was due to more raw materials being on hand at the close of the year, and smaller number of orders received during the year.

Quinine treatments of the value of Rs. 32,307-1-0 were received from the Medical Storekeeper, Bombay, and 5,696 parcels were distributed. These transactions have also resulted in a loss of Rs. 15,335-15-10, due to the difference of Rs. 2-10-0 between the purchase and the selling prices of the treatments. I really do not see why Government should lose by selling quinine treatments. If the treatment is good, the public will buy, even if the price is raised. At any rate it will pay cost.

41. Jail made articles of the value of Rs. 93,813 against Rs. 1,09,814 in 1920 were supplied to Government Departments as detailed below :—

	Rs.
Public Works Department	8,456
Police Department	17,031
Marine Department	11,301
Military Department	1,110
Other Civil Departments	22,773
Somaliland Protectorate	7,358
Basrah and Baghdad Jails (in Mesopotamia) ..	25,784
Total ..	93,813

Deccan Convict Gang...

42. The Gang remained at Visapur in the Ahmednagar District throughout the year. With an average of 1,970 prisoners sentenced to labour, the net cash profit amounted to Rs. 64,014 against Rs. 70,503 with an average of 1,794 prisoners in 1920. The health of the prisoners was satisfactory.

The prisoners in this Gang at Visapur are employed on constructing a large dam, for purposes of irrigation of a tract which suffers from scarcity, owing to constantly insufficient monsoon. When the work is complete, it will be 7,000 feet in length, with an average height of 60 feet. The prisoners do all the different forms of work. The most important, the masonry, has been pronounced by the Executive Engineer as equal to any done outside. We are, therefore, turning out men, who on release will be able to earn their own livelihood, and not only that but earn a good wage. As these men are mostly habituals, it is to be hoped that many will be reclaimed from crime in this way.

The whole construction is done by convicts and this year the following work was done :—

During 1921.

(*a*) *Temporary Waste Weir*—

Earth work .. .. .. 2,82,464 cubic feet.

(*b*) *Stone Pitching*—

Pitching the Dam .. .. 1,27,312 square feet.

(*c*) *The Dam in the Gorge*—

Clearing site of the dam .. .. 6,63,483 cubic feet.

Hearting .. .. .. 43,25,869 ,,

Muram casing .. .. .. 9,59,388 ,,

(*d*) *Superstructure of stone in lime masonry*—

Superstructure of the outlet was commenced from R.L.* 28·50 completing inverted and tunnel arching for a length of about 200 feet, abutments of arched tunnel, and portions of head, wing and return walls.

(*e*) *General*—

The portion of the Dam in the Gorge was under filling during the year, first in full width from R.L.* 10·00 to 19·00, and then in half width from R.L.* 19 to R.L. 35, and then in half of the width from R.L.* 36 to R.L. 50. Owing to the threatened situation, on account of the heavy rain and sudden

*R. L. = Reduced level.

floods in the river, and leaks from underneath the Dam in one or two places, the work was carried on both by Famine and convict labour for about three months, *viz*, from June to August. The famine labour was dispensed with, as soon as the threatened situation was past danger.

I quote below the letter from Mr. C. O. Lowsley, Executive Engineer, to show the good work done by the Convict Gang at a critical time.

Letter No. 4877, dated 9th September 1921, from the Executive Engineer, Ahmednagar District.

" In forwarding extracts from the correspondence regarding the filling of the gorge portion at Visapur, I have the honour to tender my thanks to you for the great help given by you during the critical period of filling the gorge at Visapur at the beginning of June last.

As you are aware, at that time there was the possibility of the filled portion being overtopped or breached, and I am much indebted to you for your hearty co-operation and willingness to accede to all my requests regarding the employment of prison labour to the best advantage."

The building work done for the jail was—

(*a*) Two new sleeping barracks.

(*b*) Six separate cells—an additional six under construction.

(*c*) An additional hospital.

(*d*) A hospital store room.

(*e*) Extension of one ward of the old hospital.

All these were entirely constructed by jail labour.

The accommodation in the gang is now 1,985.

The prisoners were well behaved during the year. Except in the case of some Sindhis, who towards the middle of August intended to give trouble; information having been received the ringleaders were withdrawn from the works and eventually transferred elsewhere. In September nine Sindhis fomented a disturbance. The Head Warder in charge of the " Black soil " party (bringing back soil to the dam in trucks from) took prompt measures, and the prisoners were suitably dealt with. After that there was no further trouble.

The Superintendent reports well of the staff as a whole. And especially on Jailors Messrs. R. J. Jakatdar and P. A. Fernandez, and on the very good work done by Assistant Surgeon T. H. Mehta, the Medical Officer. He is noticed elsewhere also.

That the Gang did not earn as much as the year before is due entirely to the nature of the work, which was chiefly earth work, and is paid for at a lower rate.

I conclude the note on this Gang by another note from Executive Engineer, Ahmednagar District.

" During this period and at all times I have received the greatest help from Mr. C. H. Brierley, M.B.E., Superintendent of Deccan Convict Gang, who has given me the maximum number of prisoners for the work and employed them at whatever spot I desired."

Extract from the Superintending Engineer, Central Division's No. 7184, dated 5th September 1921.

" A letter of thanks should be sent officially to the Superintendent, Deccan Convict Gang, Visapur, for the ready help rendered by him on the work."

The Hur Settlement has given no trouble.

Sind Convict Gang.

43. This is an Extramural Prison five miles from Hyderabad. It showed a net cash of Rs. 18,755 against a profit of Rs. 27,488 in 1920; the average number of prisoners sentenced to

labour was 652 against 622. The reason of the fall in profits has been stated under paragraph 43. The gang is fed with labour by Sukkur, Hyderabad and Karachi Prisons. During this year labour was supplied—

(1) For breaking and loading ballast for the N. W. State Railway.

(2) To Executive Engineer, Fuleli Canals, for Hyderabad Badin Road making, and canal clearance.

Owing to the large stock of ballast broken for N.W. Railway this work was stopped; and for some time anxiety was felt as to labour for the convicts. And many convicts had to be retransferred.

But at the end of July the excessive rainfall (10" in 24 hours) caused heavy damage to all the jail buildings (which are "Kachha" brick and mud) and over 120 prisoners were constantly employed on rebuilding the jail.

The rain also caused a breach in the River Protection Bund at Kotri, and convict labour was hurriedly applied for and promptly given. And had it not been for their services, the damage to the town would have been serious.

The warder establishment was unsatisfactory—there having been several escapes, due to slackness on their part.

The convict officer staff showed some improvement.

Prison Press.

44. The outturn of the Yeravda Prison Press during 1921 was as under:—

Operations.	Unit.	Outturn.
Hand Composition	Pages, F'cap Folio, Solid Pica	21,285—10 Lines.
Stereo Foundry	Finished Plates in lb.	8,253—5 oz.
Machine	Impressions F'cap	52,042,647
Hand Press	,, ,,	5,097,930
Hand Sewing	Sections F'cap Folio	307,172
Machine Sewing	,, ,,	655,532
Casing In	Books (Half Bound F'cap Folio—100 leaves)	122,388
Ruling	Impressions F'cap	27,050,622
Paging	,, ,,	14,394,335
Perforating	Cuts	1,540,023
Folding	F'cap Folio Single Fold	11,626,529
Collating	,, ,,	18,334,354
Wire-stitching	Stitches	1,735,001
Insetting	Insets	7,005,100
Eyeletting	Eyelets	644,330
Envelope Making	F'cap Thin envelopes	22,526,253
Miscellaneous Productive work in Binding.	Hours	1,222—45 Minutes.
Embossing	Impressions	58,681

According to the Manager it shows an aggregate increase of 15 per cent. which is very satisfactory.

During the year under report, the Press handled over 15,000 indents for standard and special forms including Book work and Desk Diaries both from Civil and Military Officers and also from Bodies financially independent of Government. A portion of the Census work was also done at the Press at the cost of Rs. 5,749-8-7 as against Rs. 5,753-4-0 for the previous financial year. The requirements of the Development Department for standard and special forms were an additional burden on the resources of the Press and the cost of total supplies to that department works out to Rs. 5,990-3-9 so far.

The number of prisoners employed was 306 against 400 in 1920, the total cost of their maintenance being Rs. 49,036 calculated on an average cost of Rs. 160-4-0 per prisoner.

Gardens.

45. I have been constantly trying to get Superintendents to get more out of their gardens, and their efforts in this line is shown below:—

	Rs.	Rs.
The vegetables supplied by jail in 1921 increased =	11,615	14,217
Condiments supplied by jail in 1921 increased =	2,602	
Vegetables and condiments supplied by contractor decreased by ..		11,227

This undoubtedly means a great saving to Government.

Condiments which have up to recently been wholly supplied by outside contractors are being grown, and with success, by the jails themselves.

Owing to various causes, *e.g.*, want of water, heavy rainfall, insect pests, etc., vegetables have still to be supplied by contractors to some jails, in large quantities. In these cases the causes are gradually being eliminated, and a saving has taken place as shown above.

I have pointed out to Superintendents that this is one item that must show a bigger saving year by year, until outside help is almost entirely eliminated.

Ratnagiri Prison.—As I pointed out last year it is an up hill fight, for the soil is poor and water deficient. In spite of these difficulties, vegetables were bought from outside to a much smaller extent, and then only root vegetables. The garden supplied its own from February to May.

Karwar Prison.—Garden is still backward on account of—

(1) poor soil;

(2) heavy rain;

(3) ravages of insects.

The first cause is slowly but surely being removed by my having ordered good soil to be carted daily from the forest and laid down in the garden. This will take years but will repay the trouble. In fact it has done so already. The value of vegetables supplied being nearly half as much again as in 1920 (Rs. 1,567 as against Rs. 1,073).

H.M.'s House of Correction.—This is a matter for congratulation and encouragement to others. Two years ago I saw a piece of waste ground in the jail enclosure, and suggested the use of it as a garden, in order to save Government the cost of vegetables to prisoners. Last year, as was noted, there was quite a respectable outturn. But this year vegetables were supplied practically throughout the year—13,589 lbs. (worth Rs. 917) as against 3,506 lbs. (worth Rs. 234). Thus a saving to Government of nearly Rs. 1,000 with a corresponding decrease of outside help.

Thana Prison.—This garden has been used during the last two years to supply the two Bombay Prisons—one of which has no garden.

Owing to the heavy rain in Thana the garden is flooded periodically for several months. And it is impossible to grow vegetables for some months. But, by good management, vegetables were supplied to prisons and jails (lbs. 69,994 against lbs. 66,136); but more bought from contractor during unfavourable months. A very heavy burst of rain flattened out even those vegetables that had been planted in the hopes of bringing out something earlier than usual. In spite of this, vegetables from contractor were less. Condiments 291 lbs. as against nil were grown.

The vegetable supplies to other jails were more than twice as large as the year previous. This constitutes a good record; and for this, Mr. Amritlingum and Mr. Laxton are to be mentioned.

Deccan Convict Gang.—During the year the prisoners have to be supplied with vegetables. These were grown in 5 gardens in different parts of the area above the dam.

On June 4th a flood came—without warning—leaving 30 feet of water behind the dam, and submerging 4 gardens. This necessitated getting vegetables from outside for three months—a thing which had not been done for years. It will be a long time before this damage can be remedied. It was expected that some day there would be a flood, and that gardens would be submerged, because they lay in low lying ground inside the dam area. But it was hoped that the process of flooding would be more gradual, and that the water would not come down in such volume as was the case. Furthermore, it did not actually rain in Visapur, but in the hills some miles away. A garden has been opened below and to the left of the dam.

In spite of all difficulties the Superintendent has managed to get a fine crop of chillies, turmeric and onions.

Sind Convict Gang.—This was a very successful year. Vegetables were supplied not only to the convicts all the year round, but surplus was given to warders and staff. Vegetables were also dried, stored, and supplied to Sukkur Prison (over 4,000 lbs.).

A potato crop was successfully grown. But this crop takes up too much space.

Here again I ordered condiments to be grown in order to save cost to prison. Nearly Rs. 200 worth of condiments were grown as against Rs. 68 the year before.

Besides these bajri (Rs. 311), jowari (Rs. 98), tobacco (Rs. 22) and wheat (Rs. 95) were grown, showing a saving to Government of Rs. 526.

Bijapur Prison.—Here I must give Mr. Cowper, the jailor, credit for his keenness and good work. He converted a barren rocky piece of ground in his own compound into a garden, containing excellent vegetables. One has only to have seen the place before and after, as I did, to appreciate the hard work and difficulties that were surmounted. This garden contributed over 1,800 lbs. in 4 months.

Gardens have thus saved Government over Rs. 1,200 this year.

Karachi Prison.—The garden supplied vegetables throughout the year (Rs. 4,867 against Rs. 2,401). This price was due to more rational rates being put on vegetables. The contractor's rate was 100 lbs. per rupee, because he knew he would never have to supply, and in order to make his other rates look better.

During the year, condiments were sown, and 647 pounds raised as against 29 lbs. in 1920. This item is a very expensive one in all jails. And I am trying to cut down expenditure in this direction, by growing as much as possible.

When there are a couple of wells in this prison, the money expended on water will be much reduced. At present municipal water is used.

Ahmedabad Central Prison.—The work here was exceedingly good and valuable. Vegetables to value of Rs. 23,295 against Rs. 14,022 in 1920 were supplied. A new plot of land was opened and new well dug. The finest outturn for the past 14 years was shown.

Shikarpur Prison.—The chief and only employment (except prison services like grinding grain and cooking) is gardening. A large vegetable garden is kept, and a few crops (like jowari) also are grown.

There was a great increase in value of vegetables grown (Rs. 1,893 as against Rs. 1,082). And vegetables dried and kept for the summer, and supplied both to this jail and Sukkur—360 lbs. of raw mangoes to Sukkur.

At my suggestion condiments were also grown: coriander, garlic and chillies. The attempt to grow turmeric failed, and the chilly crop was an indifferent one.

Still there was a saving in condiments of Rs. 61.

Another well was dug during the year.

Rajkot Prison.—Very little to report in this jail. The garden has supplied vegetables all throughout the year. A new well is being completed.

Dharwar Prison.—This jail has shown that by drying and storing of vegetables a bad season can be tided over. The jail supplied all its own vegetables, and the value was Rs. 3,411-7-6. But where the saving to Government is shown more clearly and where it is always more difficult to make one, is under the heading "Condiments." In 1920 condiments worth Rs. 577 were purchased as against Rs. 132 in 1921. This was done by growing their own condiments. In Dharwar where we have boys being taught farming and agricultural work, we must try and wipe out the contractor's charges altogether.

The tank here is too small for requirements. So I told the Superintendent to start enlargement, and the digging of another, if necessary. The tank has been enlarged, but is still not large enough and the catchment is small. Another tank is being dug in a more favourable spot, where the catchment is larger.

Yeravda Central Prison.—Owing to financial stringency water supply scheme at Yeravda could not be settled. The estimate for supply from the river is so enormous that it has had to be abandoned.

Notes on jails including their industries.

46. *Ratnagiri Prison.*—I must here give credit to Khan Bahadur S. M. Mehta, L.M. & S., for his efforts and very successful efforts they have been too—to increase the work for prisoners in this jail. The profits jumped from Rs. 417 in 1920 to Rs. 4,205 in 1921. The number of prisoners on work has been increased, so much so that none were on unremunerative work.

A large order for clothing for Deccan Convict Gang was completed. Besides this, practically all jail repairs and work have been done by prison labour alone.

Khan Bahadur Mehta has kept the number of prison servants down to their utmost limit.

Lectures on moral and religious subjects were given fairly regularly.

Punishments were less.

Remission for good work increased.

I have often pointed out that if you give a prisoner liberal remission for extra work, it means not only extra outturn. It means fewer punishments, why? Because he is too busy during work hours, and too tired at the end of the day, to break rules. Fewer punishments means less work to Superintendent and office. It reacts in many ways.

This jail shows a practical illustration of it.

(*a*) Profit on manufactures (Rs. 4,205 as against Rs. 417 in 1920).

(*b*) Award of remission for good work to (44 as against 9 in 1920).

(*c*) Offences relating to work down from 95 to 15, assaults 27 to 13 and other breaches 269 to 204.

Yet there is no doubt that this jail has a good record for 1921.

Karwar Prison.—This jail supplies—with H. M.'s House of Correction the coir bed mats to the jails in the Presidency. Besides this cocoanut oil was pressed and supplied to the following jails :—

Yeravda Central Prison.
Ahmedabad Central Prison.
H. M.'s House of Correction.
Dharwar Prison.
Dhulia Prison.

There is a fairly large cocoanut plantation, from which most of this is supplied. Supply is supplemented by purchases of coir. The net profit of the factory has been the largest since 1911 (Rs. 2,141 as against Rs. 1,644 in 1920 and Rs. 806 in 1911). The number of mats supplied was 2,510 against 2,473.

The public services supplied were—excluding the Prison Department—Marine, Medical and Forest, and to a small extent Customs, Police, Public Works Department and Judicial.

H. M.'s House of Correction.—The principal industry of this jail is coir, which is made into matting of various kinds. This jail and Karwar supply the coir bed mats for all the jails in the Province. These are supplied at the cost price of the raw material. It therefore shows the energy of Superintendent and staff, that, in spite of this, the profit on manufactures was much larger than in 1920.

The Superintendent attributes the good results to the giving of extra remission for good and extra work.

There was a large increase in the supply of coir matting to the R. I. M. (by 800).

The private orders were for coir, billiard table surrounds, sword matting, and sinnet matting (brush matting).

Thana Prison.—In this prison the daily average number of prisoners receive, was over a hundred less (621 against 729). But the number of sick were ½ (31 to 16) the number of infirms less than ½ (47 to 26) and number of unemployed nearly ⅓ less than in 1920.

Convicts on prison repairs went down from 80 to 30. Those on manufacture from 49 to 84.

A good deal of work was done for the R. I. M., the result of a personal interview with the dockyard Superintendent.

The articles supplied to other jails have been chiefly convict clothing and blankets.

The warder establishment was very unsatisfactory.

12 Resigned.

7 Dismissed.

10 Discharged.

1 Imprisoned.

This jail passed through a rather trying time, though by the end of the year showed great improvement.

Bijapur Prison.—There was a considerable increase in profits on manufactures Rs. 6,535 against Rs. 2,418 was due to.

(1) More careful supervision.

(2) Inducement given to prisoners to extra work by award of special remission.

(3) Lower prices for raw material.

(4) Zeal of warder Gailu Sing.

In spite of this increase in profits this jail helped (to a much greater extent) other jails by the supply of clothing.

It is cheering to see that the staff are appreciating the effect of giving extra remission to prisoners.

A large number of Government orders were executed.

There was a conspiracy in this jail, in November, to break out. But, owing to the prompt action of jailor and Superintendent, it was nipped in the bud. In fact, it did not even have time to bud. The principals in the case were punished, and transferred. But it revealed the fact that four convict officers knew of it, and did not report it. In fact two of them helped indirectly. This is a most unusual occurrence, as convict officers are, as a rule, very loyal.

The Superintendent and jailor report very well on the clerical and warder staff. The jailor has used a system of examining warders on points relating to their duties, and marking them. This system might well be imitated by other jails.

Karachi Prison.—This jail shows a large profit on manufactures as compared with 1920 (Rs. 12,652 against Rs. 8,683). This was due to a large private order, and the rate of twist which, although lower, did not affect the prices in jail.

The factory also supplied itself, and the Shikarpur prison with clothing worth Rs. 10,552.

Owing to repairs in undertrial ward roof, this ward could not be used for several months of the year, resulting in overcrowding elsewhere.

A new workshed, under construction, will meet a long felt want. There has not been nearly enough room.

The cubicles in this jail were dismantled during the year. The estimate was for Rs. 500 and it was done for Rs. 175 all with convict labour.

Ahmedabad Central Prison.—It is interesting here to note that the factory sales for 1921 have broken all records, having risen to Rs. 1,50,842. This jail supplied the Police with uniform worth

Rs. 10,384

Other Departments " 7,893.

It is thus seen that, besides private sales, the amount of Government work was very large.

To give readers an idea of the improvement in both factory and garden since Khan Bahadur N. R. Wachha took charge we must look at the figures. And, when these are seen, much still remains. In every direction in which one looks one finds the same successful management. Increased efficiency of staff, decrease of punishments, which he modestly ascribes as entirely due to result of moral instructions, but which I ascribe largely to his wise and sympathetic (but not cooling) attitude to the prisoners. He has managed to get more out of them than most superintendents, by his tactful and just treatment.

The years record for this jail in outturn (factory and garden) has been splendid; the mortality is 13, and it must be a matter of keen satisfaction to Khan Bahadur N. R. Wachha, as it is to me, to retire with such a record behind him.

I wish to here record with great pleasure my hearty appreciation of his work. And to state that during the few years I have been in contact with him, he has always considered the gain to Government before everything. And has always been most unselfish in his help to other jails, when asked for it. I am exceedingly sorry to have lost the services of so valuable and unselfish an officer and all in the department wish him everything of the best during his retirement.

Yeravda Central Prison.—The principal industry—the Press—has been noted elsewhere. The other industries for which this prison is specially noted are woollen carpets, cane work and cotton carpets. But it does a large amount of miscellaneous work for other jails and departments—e.g., convict clothing, fetters, iron utensil, tape, file strings etc.

The articles supplied to Government Departments were worth Rs. 4,357. To the prison itself and other prisons Rs. 40,039. The decrease on extra-mural profits is due to the smaller number of prisoners for Kirkee Arsenal the daily average being 63 only as compared with the requirements of the Arsenal being not so great as the previous year.

In this prison there are a great many prisoners who can do little or no work. A daily average No. 15·6 lepers, 76·2 infirms, and 4 mental defectives.

It may be noted here that there are numbers of Indian military prisoners in this and other jails, sent from Mesopotamia, and who belong to other Provinces. Their cases have been represented. Their retention in this Province adds considerably to the cost.

A large number of prisoners were transferred from the Andamans, for reasons of health, and added to the daily average sick.

There were also a large number sentenced under sections 121, 124 and cognate sections. Some of these tried "Hunger striking" but did not continue it for any length of time. Otherwise they behaved fairly well and were amenable to discipline.

A "Star Class" was formed in this and other jails, and appears to have answered quite well, though it is early to speak of results.

When the financial situation improves a female jail will have to be built.

My thanks are due to Col. R. M. Dalziel, I.M.S., for his able and painstaking administration under many difficulties, of which overcrowding is not the only one. His staff have helped him loyally on all occasions.

Hyderabad Central Prison.—The Superintendent put in a good deal of work in the garden with very satisfactory results especially in condiments. Turmeric does not seem to grow in Sind. All efforts to grow it have been unsuccessful.

The factory has done well but the recent non-co-operation agitation affected it during the later months.

Moral and religious instructions does not seem to meet with much success either here or in any Sind Jails. Five Hindu gentlemen were appointed in Hyderabad, but two never visited the prison, and one visited only once. Messrs. Pribdas and Fatehchand attended twice a month, and their lectures were listened to with interest. Juvenile adolescents attended all the lectures.

The floors of 2 barracks were remade and 4 wards in hospital newly tiled by jail labour with a saving to Government of about Rs. 1,000 as shown by Public Works Department estimates.

Sukkur Prison.—There is little to report, here except that the garden saved Government Rs. 1,000 over the year before.

Dhulia Prison.—A point of great interest is the fact that of the total admission 1,939, 620 or nearly 1—3 were sentenced to one month and under—mostly "Abkari" cases from Nawapur, Taloda, and Nandurbar Talukas. These admissions are detained at lockups for a week, are received weekly, are quarantined for a week after admission. Half of their short sentence is thus spent in detention. This punishment is not deterrent to the prisoners, nor helpful to the prison, and costs the Government a good deal of money. There surely ought to be some better method of dealing with these cases.

Shikarpur Prison.—This is a special jail used to take in casuals with six months imprisonment or less. This year I have tried the experiment of making convict officers from amongst these short terms, so as to keep exclusively to prisoners in this jail and not indent on any other for help. The experiment has been fairly successful.

The establishment are well reported on.

The help given by this jail to Sukkur Prison by supply of vegetables has been noted elsewhere.

H.M.'s Common Prison.—While Mr. R. M. Lafa was on leave or deputation the jail charge was held by Messrs. R. Amritlingum (25-10-20 to 24-4-21), F. B. Plunkett (29-5-21 to 24-6-21), and W. Laxton (24-10-21 to 14-11-21).

There was a serious assault by undertrials of the "Sindhi Baluch Gang" on the Superintendent in October 1921. These men were prosecuted and got one year rigorous imprisonment each.

The Superintendent Mr. R. M. Lafa was incapacitated for work for about five weeks.

This is an extremely difficult jail to maintain proper discipline owing to the chronic overcrowding, with insufficiency of barrack accommodation, and the fact that warders have no quarters and are thus not available (if off duty) in an emergency.

There house allowance has been improved but this will not settle the question in a place like Bombay. The warder question is therefore always troublesome here.

There is no reserve guard.

The Police have very kindly helped in cases of emergency by supplying an auxiliary guard.

I must thank Mr. R. M. Lafa for conscientious and hard work under great difficulties.

Borstal Juvenile Jail, Dhawar

This Juvenile Institution continued to do well. But it has been overcrowded. The boys have an hour at drill (squad, physical Indian clubs) or gymnastics every morning. They then work at their chosen industry for six hours daily except Thursdays and Sundays.

On Thursdays and Sundays they have games from 12 to 3. The games consist of football, circket, attapatya and hudtiti.

On admission a boy is given his choice of carpentry, smithy, tinning, cane work, pottery work and gardening. Tailoring and cobbler's work have been added recently. After three months, if a lad shows no progress he is given a trial at some other work. But if his sentence is too short, he is turned out into the garden for the rest of his term, as being likely to be of more benefit than any other employment.

The year opened with 336 and closed with the 338 boys. The admissions were 268 and releases 266. Two bad characters had to be transferred to Yeravda Central Prison, to prevent their bad influence on the other boys.

Thirty-two were released conditionally ; 30 of these going to Salvation Army Home, Byculla, 1 to Criminal Tribes Settlement, and 1 handed over to his father. The reports on all these as to behaviour was good, but 6 absconded from Salvation Army Home.

Two were released unconditionally.

A portion of sentence on one military prisoner was remitted by the military authorities.

Several letters have been received from released lads, and a X'mas card from Hamburg.

The school was inspected by the Assistant Deputy Educational Inspector on 2nd May 1921 and reported favourably on the boys' progress.

Professor Moulvi of the Karnatic College and Mr. Rodda lectured to the boys on moral and other subjects. I am very much obliged to them for the interest they have shown, and the time they gave up for this purpose.

This Juvenile Prison still continues to turn out good furniture, pottery, etc. But it is not run for profit, but for purposes of instruction to the boys, and to help them in their after-life.

I wish to bring the good work of Mr. T. J. Reed the Superintendent and Mr. E. L. Wickham the jailor to notice.

47. The average net cost to Government per prisoner was Rs. 153-13-0 against Rs. 142-9-0.

Statement No. XIII—Net Cost.

VITAL.

48. The following table compares the principal features relating to sickness and mortality for the years 1920-1921 :—

Statement No. XIV.—Sickness and mortality.

Year.	Daily average strength.	Admission into hospital.	Daily average sick.	Total number of deaths.	Ratio of of deaths per mille.
1920	13,728	15,025	419·1	278	20·3
1921	14,505	13,569	368·5	258	17·8

49. The death rate per mille is 17·8 as against 20·3 in 1920. The only other province whose death rate is below ours is Bengal (16·0). Punjab is practically the same (17·9).

50. Seven prisons had a percentage of over 20 per mille.

H. M.'s Common Prison—47·2 per mille—21 deaths.

Although a large number of deaths, yet 7 were direct admissions to hospital, 7 were in bad health on admission to jail, and 6 in good health.

Tubercle of lungs 6—4 direct and 1 in bad health on admission.

Pneumonia—2.

Dysentery—1, fair health on admission.

Gastric duodenal ulcer—1, infirm on admission.

Chronic Malaria—1, bad on admission.

Cirrhosis of liver—1, direct admission to hospital.

Hepatic abscess—1, direct admission to hospital.

Sprue—fair health on admission.

Small-pox C.O.—1, after 7 months in jail.

" " 1, undertrial.

Syphilis—3, bad on admission.

Fracture of base of skull
cerebral hæmorrhage—1, direct to hospital. Undertrial.

Daily average 22·4 against 16·4.

Malaria 428 against 273.

Dhulia Prison—22·0 per mille—13 deaths.

Cerebro Spinal Meningitis prevailed in a sporadic form from 18th October 1921, there being 2 cases on that day, which ended fatally. The next case occurred over a month after 23rd November 1921 (fatal) ; the third on 30th November 1921. There were no other cases during 1921.

Measures were taken to prevent the spread of the disease :—

Segregation of any patients showing symptoms.

Quarantine and hospital patients gargling with saline.

All barracks in which cases were found disinfected.

Hard work parties stopped to avoid exposure to heat.

Transfer of prisoners to jail stopped, together with any other measures that suggested themselves from time to time. The cases assumed an epidemic character in March 1922.

Of deaths 5 due to Cerebro Spinal Meningitis from 26th September 1921.

Malaria—1, admitted in very bad health.

The other cases require little comments.

The case of tubercle had been ten months in jail, before disease declared itself.

Three cases were in a bad state of health on admission.

Rajkot Prison—22·5 per mille—2 deaths.

Two cases of pneumonia. No particular cause could be assigned.

Karachi Prison—21·2 per mille—12 deaths.

Pneumonia—3—1 direct admission.

Pulmonary tuberculosis—3—1 direct admission.

Bronchitis—3.

Acute mania—1.

Cellulitis of left hand—1.

Myocardial degeneration—1.

Hyderabad Central Prison—22·4 per mille—28 deaths.

Pneumonia—18.

During the month of January 1921 there was a very virulent type of pneumonia following influenza epidemic.

Tubercle—3.

Chronic bronchitis—1.

Dysentery—1.

Ankylostomiasis—1.

Leukæmia—1.

Emphysema—1.

Chronic Brights disease—1.

Membranous colitis—1.

Had it not been for the epidemic of influenza, this jail might have been called healthy.

Sukkur Prison—33·0 per mille—21 deaths.

This jail has the worst mortality record for the whole Presidency.

There were 21 deaths, four being due to influenza (Pneumonia) and

Pneumonia—11.

Dysentery—4.

Scurvy—1.

Malaria—1.

Influenza epidemic raged from January to March 1921 during which time there were 103 cases with 4 deaths.

Sind Convict Gang—26·1 per mille—17 deaths

17 deaths—16 being due to pneumonia. Of these 13 occurred in the first three months of the year, and after that one each in July, September and November. I had suggested an officer going up to investigate "Sind pneumonia" but no one can be spared.

Deccan Convict Gang—11·7 per mille—23 deaths.

The health of this Extra Mural Prison has been good. The rate being 11·7 per 1,000 as against 38·6 in the District.

The daily average strength has been 1,970 as against 1,800 last year. In spite of this, the health of the prisoners has been better. A great deal of the credit, must be given to the Medical Officer, Assistant Surgeon T. H. Mehta, who has shown great keenness in his work. As I considered the hospital accommodation insufficient, another ward 55′ × 18′ was built, and the observation ward extended by 20′ in length. The hospital accommodation was thus enlarged by 26 beds and floors improved, and a disinfector provided.

Two new barracks were added to prevent overcrowding.

Of the 23 deaths, 12 were pneumonia. These occurred in January, April, May and June.

The remaining deaths were due to Cellulitis, Uraemia, Angina pectoris, Pericarditis, Bowel complaints 3, etc.

Yeravda Central Prison—15·7 per mille—31 deaths.

Before passing any remarks on the mortality in this jail I must point out that it has a tubercle ward, to which all cases are sent from Deccan and outlying parts. We may therefore exclude practically all deaths from this cause, when dealing with the mortality because they are not strictly speaking deaths belonging to Yeravda Central Prison.

The death-rate is 15·7 as against 29·01 for the District.

The deaths were 31 of which 13 were due to tubercle. There were—

Dysentery—3.

Diarrhœa—1.

Pneumonia—2.

Pyrexia—2.

Cirrhosis—2.

It speaks well for the superintendence in this jail that the mortality is so low.

H. M.'s House of Correction—4·3 per mille—1 death.

The general health has been good, and there has been only one death.

Four prisoners with T. B. were transferred. All had disease before admission.

Malaria was the highest entry being nearly one half on total admissions.

Bijapur Prison—5·9 per mille—3 deaths.

When one sees the cause, *viz.*, Cirrhosis of liver, Dilatation of heart direct admission, and T. B. lungs (direct admission from outside into hospital) one sees none of these could be prevented. And none could be attributed to jail life. All were admitted to prison in bad health.

The Medical Officer Dr. J. C. DeQuadros, L.M. & S., and his subordinates are to be congratulated on the results.

The quinanization and dieting of admissions on weak and indifferent state of health (due largely to malaria) resulted in turning them into healthy convicts fit for hard labour.

Dharwar Prison—0.

No deaths. This may be ascribed to several factors.

(1) Medical supervision.

(2) Healthy exercise given to the boys all the year round.

Karwar Prison—5·6 per mille—1 death.

One death due to acute intestinal obstruction.

Ratnagiri Prison—5·5 per mille—1 death.

One death tubercle of lungs direct admission. Influenza of a mild type.

Thana Special Prison—17·6 per mille—12 deaths.

This is one of the jails with a tubercle ward (Yeravda being another).

Four out of 12 deaths were due to this disease. There were four deaths due to bowel complaints (one being admitted direct to hospital). There were two cases of pneumonia and one (a direct admission) for valvular disease of the heart.

Epidemics mumps, chicken-pox were present during the year.

Ahmedabad Central Prison—9·7 per mille—13 deaths.

Death-rate 9·7. Local death-rate 31·61.

There was an outbreak of influenza (15 cases 2 deaths) in March and April. This was prevented from spreading by energetic steps taken by jail staff.

The number of deaths were 13—2 being due to influenza, 3 tubercular (2 of these were direct admissions, *i.e.*, straight into hospital). The remaining deaths due to—

Dilatation of heart—1.

Asphyxia due to food lodging in the larynx—1.

Suppurative parotitis—1.

Enteric fever—1.

Emphysema—1.

Brights disease—1.

Cirrhosis of liver—1.

I must here give credit to Assistant Surgeon G. R. Khandedia, M.B., B.S., for his zeal and good work, in which he was always helped by the Superintendent.

This jail has a very good health record for the year.

Shikarpur Prison—15·1 per mille—3 deaths.

Three deaths pneumonia.

One received in a dying condition.

One very old.

One weak and toothless.

Aden Special Prison—19·6 per mille—2 deaths.

Both phthisis, both Somalis, and both dhobis and both convicted at same time, admitted and died same day.

If any unprejudiced observer looks at the mortality rate in these jails and the surrounding districts, he will surely doubt all that is written in some papers about prisoners "Rotting in jail". It is a favourite expression with some. The generality of prisoners gain rather than lose weight in jail. Of course, some prisoners

lose weight at first, and that is natural owing to the new conditions under which they are living. But if you look at their physical equivalent, you will notice they never go below that, and I daresay there are many of us who would be all the better for a few pounds off.

51. Prevailing diseases.

The statement requires no special comments.

Statement No. XV. Malarial fevers showed an increase 2,411 against 2,262.

H. M.'s Common Prison contributes the highest (428 against 273 in 1920).

Owing to want of funds no extra accommodation for tubercle patients was constructed this year.

52. There was overcrowding in 12 jails as noted below :—

The prison accommodation is	.. ..	9,723
Daily average in 1920 was	.. ..	11,509
Daily average in 1921 was	.. ..	11,952

Prisons.	Accommodation.	Daily average strength.
H. M.'s Common Prison	180	436
H. M.'s House of Correction	220	231
Yeravda Central Prison	1,548	1,978
Dhulia Prison	530	591
Deccan Convict Gang	1,800	1,970
Bijapur Prison	313	508
Dharwar Prison	347	405
Ahmedabad Central Prison	1,013	1,342
Karachi Prison	368	560
Hyderabad Central Prison	906	1,248
Sukkur Prison	386	616
Sind Convict Gang	530	652

The accommodation in Deccan Convict Gang has already been increased by 185.

The accommodation in Sind Convict Gang is being increased in 1922 by having one more barrack (entirely by jail labour) constructed.

In my opinion the Common Prison is the jail in which the problem of overcrowding is most serious and most pressing and ought to be remedied by the construction of a new jail. It was condemned many years ago. Not only is there insufficient accommodation for prisoners, but there are no warders' quarters. Consequently the warder is chronically discontented, and can never be present in an emergency, unless he happens to be on duty.

53. In Subsidiary Jails and Lockups the population, admission into hospital, etc., decreased. But the daily average was higher and death-rate was the same.

Population	73,161	against	85,054 in 1920.
Daily average strength	2,525	,,	2,192 ,,
Admission into Hospital	3,863	,,	3,888 ,,
Daily average sick	25·9	,,	26·2 ,,
Deaths	54	,,	47 ,,
Death-rate per mille	21·4	,,	21·4 ,,

54. Prisoners' weighments.

The following table compares the figures for the years 1920 and 1921.

Year.	Number of prisoners discharged.	Of the number discharged those who		
		Gained.	Lost.	Remained stationary.
1920	23,468	14,382 or 61·3 per cent.	4,540 or 19·3 per cent.	4,546 or 19·4 per cent.
1921	24,367	14,281 or 58·6 per cent.	5,766 or 23·5 per cent.	4,320 or 17·7 per cent.

OFFICIAL AND NON-OFFICIAL VISITORS.

55. There were 238 official visitors, 51 quarterly meetings were held, all being well attended. Four hundred and ninety-four visits were paid by official, and seventy-three-by-non official visitors.

BUILDINGS.

56. Funds were allotted for the following major and minor works during the year :—

Major.

Yeravda	..	Reroofing of sleeping barracks. The work was in progress last year.
Dharwar	..	Office and entrance at the Juvenile Jail.
Hindalgi	..	Proceeding with building of new jail.
Karachi	..	New workshed in the new Karachi Prison—very necessary.

Minor.

Works of interest financed out of the discretionary grant were :—

Bijapur	..	Contractor's godown. Compensation for a strip of land required for new road to prison garden.
Hyderabad	..	Supplying materials for reflooring the prison hospital.

The work of reflooring the hospital barracks at the Hyderabad Central Prison was done by convict labour, costing Rs. 750 less than the Public Works Department estimate.

The Assistant Engineer makes the following remarks :—

"The work done by the prisoners in repairing the hospital floors has been done satisfactorily. This kind of pavement requires more skill and finer workmanship than the ordinary pavement of square country tiles, and considering that I supplied an outside mason only for one of the four rooms, I think the work has been done as economically as possible."

The Superintending Engineer who visited Hyderabad Central Prison also made the following remarks about the same :—

"The cement tiling floor in the hospital done by jail labour is really work well done."

"The work was excellent and superior to that one in a public office at Karachi by a contractor."

The question of greater employment of prisoners on public works is before Government in their Public Works Department. I would however suggest that it would be more economical and convenient to allow Jail Department to carry out all minor works pertaining to all jails in this Presidency departmentally by convict labour alone—under supervision—if and when necessary, Public Works Department supplying the materials only.

And also that the repair grants for jails be placed in the hands of the Superintendents. Public Works Department labour will not be used unless absolutely necessary—when it can be asked for. This would release Executive Engineer from the trouble attendant on jail construction and give them more time to attend to their many other duties. The jail authorities would be keen to do their own work as well as possible.

I see no reason why the department should not do all its own building and repair work—under supervision, where and when necessary. It has been, and it is being, done in other provinces.

The Executive Engineer, Ahmednagar, says the masonry work on Visapur dam (all convict labour) could not have been done better by any skilled labour from outside.

The Assistant Engineer, Ahmedabad, complimented the Superintendent on the foundation work done for a workshed and said he did not think his own men could have done it better.

A portion of the compound wall round the river side garden at Dhulia Prison has been built entirely by convict labour at the cost of Rs. 100 only sanctioned by me out of my "Petty construction and repair grant." The estimated cost of which as fixed by Public Works Department was Rs. 2,200. This reflects credit on the part of the Superintendent and the Jailor. Similarly Dr. R. J. Petigara, L.M. & S., with his jailor at Sukkur reports that the work of removing cubicles and consequent repairing works of all barracks was satisfactorily done by convicts at the total cost of Rs. 75 only against the Public Works Department estimated cost of Rs. 1,400. The two convicts who did this work were given special remission by me.

MISCELLANEOUS REMARKS.

57. The Bombay Society is well known by this time. And while thanking all for their help, I would not like to omit to specially mention Messrs. M. R. Chitnis, D. N. Kotwal, G. K. Dikshit and T. A. Kulkarni, who do most of the spade work. Mr. Chitnis visited the Common Prison daily and House of Correction once weekly.

Released Prisoners' Aid Societies, Bombay.

Four hundred and ninety-six prisoners were helped—some by temporary board and lodging, others by restarting their old trades and occupations, others again by tickets and passages to their homes, and lastly gifts of clothing, tools, and shoes.

An endeavour is made to keep in touch with prisoners after release. But this is very difficult.

The results each year grow more encouraging.

The Bijapur Society is a much smaller one, and looks after Bijapur cases especially. They had 22 prisoners on their books in 1921. One absconded, but all the others did well.

Messrs. O. H. B. Starte, I.C.S., and A. R. Prabhu are Honorary Secretaries. They were well backed up by Messrs. F. W. O'Gorman, Chunilal Panalal, and Rao Saheb Sidramappa.

58. The Annual Report of the Salvation Army Boys' Home has been submitted. Thanks are given to them for the good work they are doing in the jails.

59. The year's results are as follows :—

The gross cost per head was Rs. 175-1-5 against Rs. 160-7-7 in 1920.

The net cost per head, exclusive of charges on account of inspection and general supervision, was Rs. 153-13-0 against Rs. 142-9-0.

The cash earnings were Rs. 2,45,583 against Rs. 1,93,881.

The death rate was 17·8 against 20·3.

60. In addition to those mentioned in the body of report I bring the following to notice :—

Assistant Surgeon J. C. DeQuadros for his good work in Bijapur Prison.

Khan Bahadur Assistant Surgeon S. M. Mehta for his work in Ratnagiri Prison.

Mr. Amritlingum Mudliar, jailor, 2nd grade, for good and hard work in Thana and Common Prison as officiating Superintendent.

Mr. W. Laxton for his work in the Yeravda Central Prison jail garden.

Mr. J. Read for his work in factory at Yeravda Central Prison, and maintenance of discipline when senior jailor.

Mr. D. H. Cowper in Bijapur Prison as jailor, and for his work in the garden.

61. In my office the Personal Assistant, Mr. K. N. Ratnapatkhi, has been of great help and Messrs. S. R. Choubal, S. M. Gokhale and S. S. Deshpande, the two latter when on tour. The remainder of the staff worked satisfactorily.

62. The jailors and warders got their revised pay in 1921 and the majority of them seemed satisfied, especially when it was made retrospective from March 1920.

The pay of the warders is still below that of the Police, owing to a recent increase of the latter.

63. In order to add a little interest to the report I have, with the help of some Superintendents, got together some photographs showing some work and industries carried on in different prisons. I here wish to record my thanks for their help in the matter.

H. M.'s House of Correction.

(*i*) Sword matting (coir). Prisoner on left with wooden sword uplifted.

(*ii*) Shows how sword is used to drive the weft threads against one another, and so strengthen the mat.

(*iii*) The brush matting—made just like the ordinary woollen carpet. The man on left putting in the " Pile ", the one on right hammering it against the " Pile " below.

Yeravda Central Prison.

No. 1 shows cotton carpet (upright loom) intricate pattern.

No. 2 making uniform badges for warders.

No. 3 Garden mote.

Teakwood logs in the water being seasoned. Prisoners here have been digging out the tank so that it may hold more water.

Sind Convict Gang.

Prisoners in the three photographs are seen working in a deep cutting, excavating earth, at a depth of 30 feet. The pit is in connection with the regulating and diverting the head of the Fuleli canal at Jamshoro. The detachment is called the " Jamshoro Detachment ".

Shikarpur Special Prison.

Pounding the clods of earth in the garden with wooden mallets. The prisoners here work in beautiful surroundings.

Karachi Prison.

No. 1 showing the making of woollen carpet. The size most sought after, $7' \times 4'$, is worked by 4 prisoners, *i. e.*, 1 Reader and 3 working. The task is $\frac{3}{4}''$ per day.

No. 2 cotton carpets or durries :—The task varies from 3" to 18", according to the complexity of the pattern.

No. 3 The Dyeshed :—Here are dyed all the colours for woollen and cotton carpets. Four prisoners are employed, the outturn being about 500 to 600 lbs. of dyed material monthly.

No. 4 starching or sizing the warp :—This work is done by 4 prisoners and has for its object the strengthening and stiffening of the thread. The starch used is made from wheat flour.

No. 5 Weaving :—This shows shed full of hand looms.

No. 6 charkas or spinning wheels :—These are used either to separate or twist the thread together. The work is generally done by old men, and those recommended for light labour.

Nos. 7 and 8 Chair making :—Prisoners' plates and drinking mugs are seen in the fore ground.

Bijapur Prison.

A is the famous prayer carpet, but the arch is very faintly seen, owing to the colour of material used.

B photograph of the store-room erected by convict labour.

C inside one of the workshed showing fly shuttle loom.

D The photo shows the prisoners working at the Boring Machine.

Thana Prison.

A Photograph showing prisoners making cane chairs, baskets and chicks.

B shows a plot of "Rajgira" (country spinach) sown in April. Plantation of plantain trees seen also.

Dharwar Prison.

Photographs 1, 2, 3 and 4 explain themselves. The figures dressed like warders are monitors. It will be noticed in photograph No. 3 that the plough used is the English plough.

Dhulia Prison.

No. 1 shows new pattern of charka, introduced in Dhulia Jail for spinning twist. By this the right hand is not in use, and it comes handy whenever the twist becomes irregular. The movement of the wheel is done by the leg, like the sewing machine.

No. 2 shows ploughing the Dhulia Jail garden with the English plough, whereby the ground is evenly turned, and the furrows are much deeper and more earth is exposed to the air.

No. 3 shows barrel used in polishing turmeric grown in Dhulia Jail garden.

Deccan Convict Gang.

(1) Prisoners at work to rear of tunnel. (The stone dressers at work will be noticed to right of picture).

(2) Prisoners at work on and in front of Outlet portion of Dam. (The light labour prisoners wearing their grass hats will be noticed clod breaking on top of Dam).

I have the honour to be,

Sir,

Your most obedient servant,

F. O. N. MELL,

M.B., C.M., D.P.H.,

Lt.-Col., I.M.S.,

Inspector General of Prisons,

Bombay Presidency.

PART II.

STATEMENTS.

4

Punishment Diet Scale.

1 lb. bájri or jowári flour, 6 drs. salt and 1 lb. firewood.

5

Note of any change effected in Diet Scale during the year.

Yeravda Central Prison.—The quantity of condiments was reduced to half in the case of European prisoners from the year 1909 on medical grounds. It was reduced to 3 drs. on medical grounds for all other prisoners. Convict Overseers were given meat on Wednesdays along with convict Warders.

Ratnágiri Prison.—The issue of rice 1 lb. 2 ozs. on Monday, Thursday and Saturday in lieu of bájri. Jawari is not issued in this prison.

Karachi Prison.—Besides the scale raw onions (4 ozs.) were issued to all prisoners as part of vegetables from June to September. Potatoes were also issued as half the quantity of vegetables in June, July and August, twice a week.

Hyderabad Central Prison.—One oz. molasses issued to prisoners on pump and hurlos.

Deccan Gang.—One oz. of molasses were issued to every labouring prisoner with the morning canjee excepting those sick prisoners who were on (*d*) diet and on light labour.

Sind Gang—

Sunday, Monday, Thursday } Wheat 12 ozs. Bájri 14 ozs.

Tuesday „ 12 ozs. Jowari 14 ozs.

Wednesday „ 2 ozs. Bájri 1 lb. 12 ozs.

Friday „ 2 ozs. Jowári 1 lb. 12 ozs.

Saturday „ 12 ozs. Jowári 4 ozs. and Rice 12 ozs.

Molasses one oz. on Monday and Thursday and 3 ozs. on Saturday.

Shikarpur.—One oz. molasses was issued with the morning conjee from 26th October 1921.

(*a*) This scale was in force in all the Subsidiary Jails except Wadhwán in which prisoners up to 2 years' sentence are confined and who are allowed the scales appearing in this statement for Native prisoners in District Prisons.

General remarks.—When bájri and jawári were not procurable in the local markets during the year under report, it was ordered that wheat and rice should be issued instead at a reduced scale with the consent of the Medical Officer of each prison or jail.

STATEMENT No. IX—

Showing the Expenditure in guarding and maintaining the Prisoners excluding the cost of building New Jails,
